Additional Information:

1 Standard Size Ratio (1:3:3:3:3:1:1:1 – XS to 5XL):

The quoted prices are based on this standardized ratio, which ensures optimal fabric utilization and cutting efficiency, resulting in cost-effective production.

2 Unsorted Size Ratio:

Orders placed without following the standard ratio will lead to increased fabric consumption due to low marker efficiency in cutting and higher fabric wastage. Therefore, such orders incur higher unit costs, which will be reflected in the quotation.
